

SOLAR GARDEN LIGHTS

SPECIFICATION

Power: 30W-60W

Light source: LED

Luminous Efficiency: 120lm/w

Input Voltage: AC220V (±10%)

Luminous Flux: 6000

CRI (Ra>) : 70-80

CCT: 3000-6000K

Working Temperature: -25~60℃

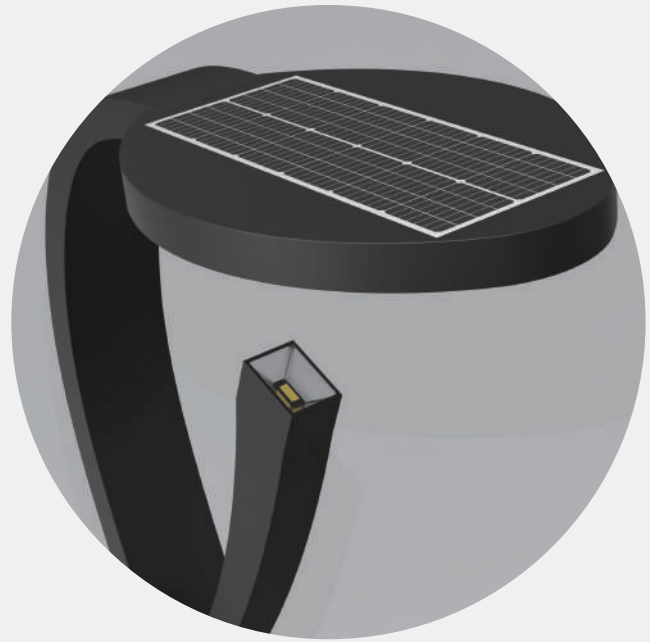

IP rating: IP65

Lifespan : 50000h

Working Time: 50000h

Warranty: 3Year

Certification: RoHS, CE

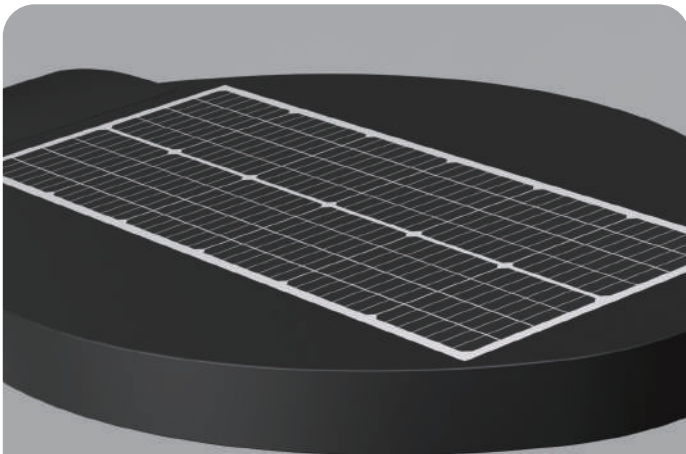

POLYSILICON SOLAR PANEL

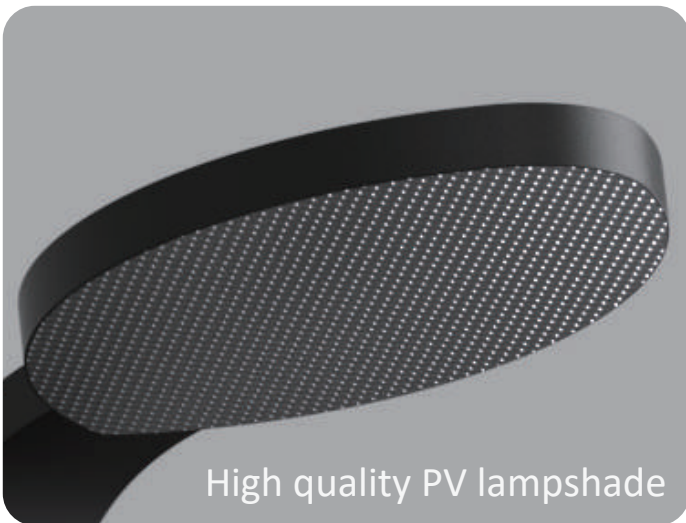

Efficiency increased by more than 1.5 times
solar energy conversion rate reach 20%.

Charging in cloudy and raining day
4~5h for full charge

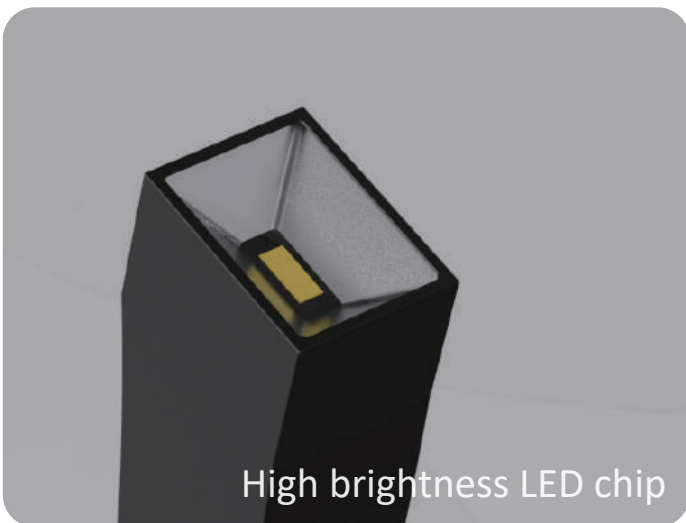

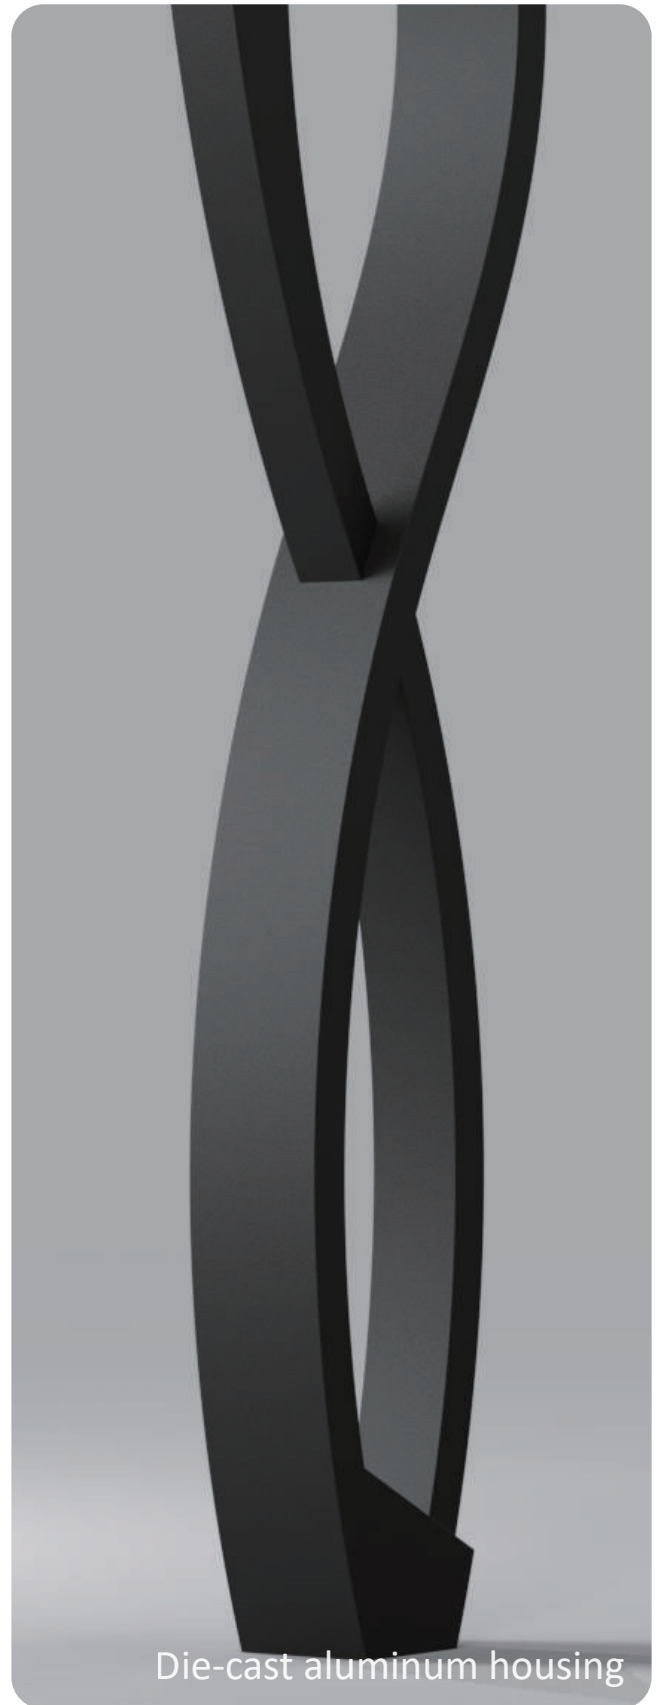

High efficiency solar panels

High quality PV lampshade

High brightness LED chip

Die-cast aluminum housing

IP65

IP65 Level Fearless to bad weather

Continuous electricity in rainy days.
Effective rain-proof, enhance life time.

High brightness

Super capacity battery

Easy installation

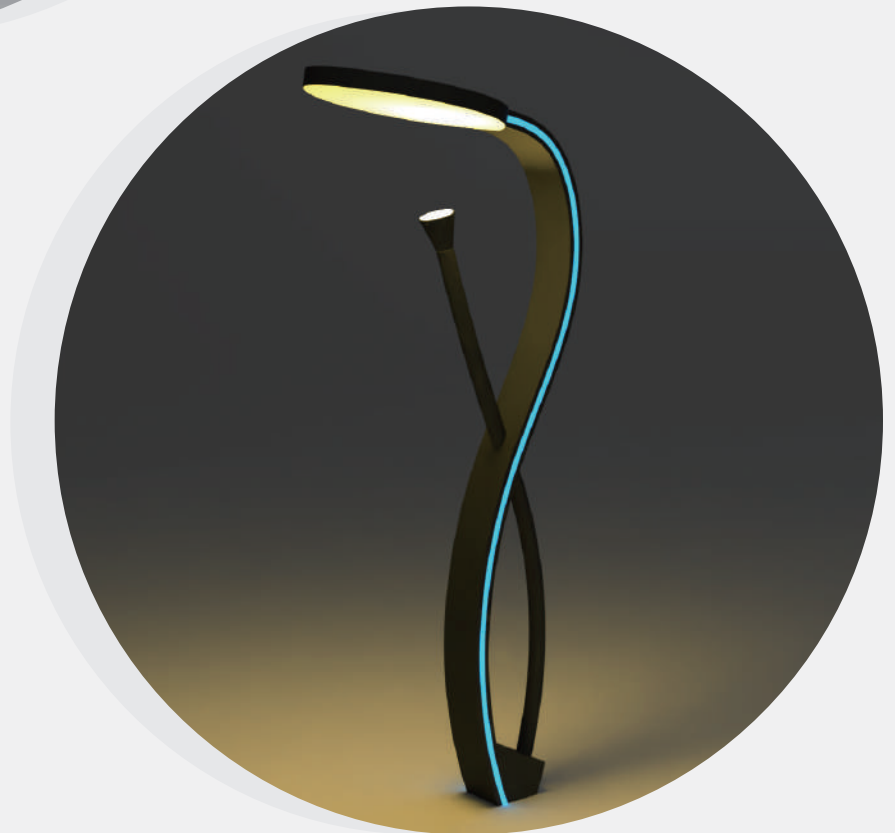

INTELLIGENT LIGHT CONTROL

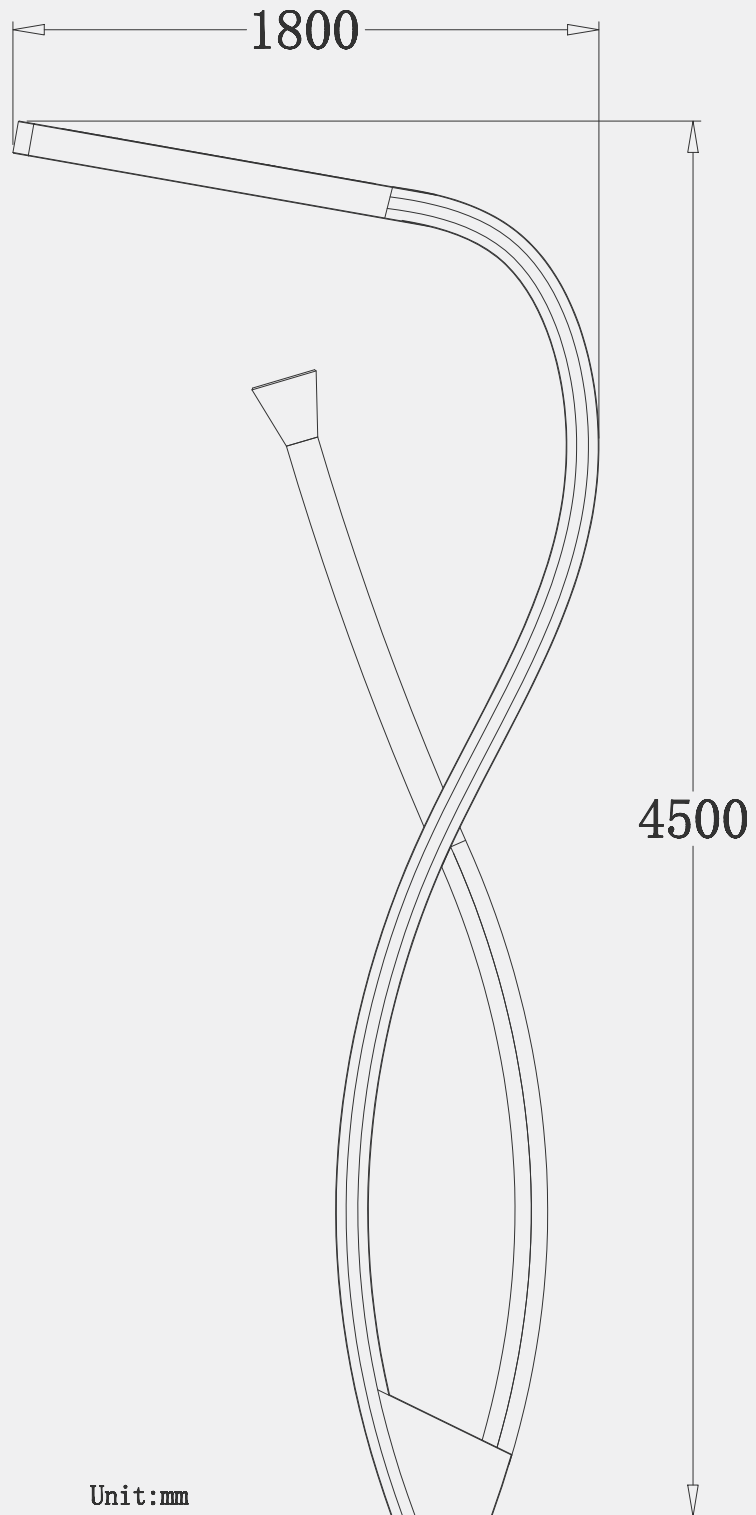

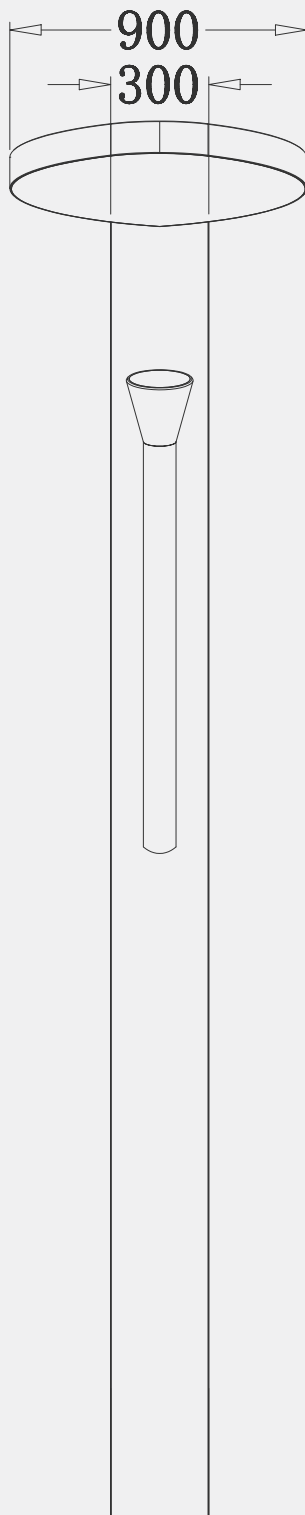

Automatic light-off
charging during the day

Light up automatically in dark

PRODUCT SIZE

Unit:mm
